

Consciousness Science 2026 budget

Base budget

- The budget breaks even at 550 participants (see right).
 - A worst case scenario with 300 participants results in a \$130k deficit.
 - A best case scenario with 800 participants results in a \$144k surplus.
- (Previous conferences have had about 700 participants.)

Additional IONS specific optional expenses

- The conference could be fully managed by contractor Abi Behar Montefiore. This is included in the budget and priced at \$45k for six months.
- Optional IONS staff involvement is estimated at \$174k in salary.
- An optional IONS staff conference booth and travel are estimated at \$33k.

Additional potential revenues not included in the budget

- Eugene Jhong has pledged to cover up to \$200k (email dated 3/12/2026).

Assuming we receive a \$200k donation, even in a worst-case scenario with 330 participants and without additional IONS staff involvement, the conference would still end with an estimated \$70k surplus.

Category	Item	#	Price	Subtotal
INCOME:				
	In person ticket	550	\$550	\$302,500
	Student Pass	50	\$500	\$25,000
