

Dear Arnaud Delorme,

OSS Capital LLC, hereby agree to underwrite the Consciousness Conference scheduled for October 11–16, 2026, by assuming financial responsibility for certain obligations as set forth below. This letter is intended to constitute a legally binding commitment.

In the event that funds generated by the conference, including registration revenue collected by UCSD and payments made directly by participants for accommodations, are insufficient to satisfy amounts due under the conference hotel contract, OSS Capital LLC agree to cover any resulting shortfall, up to a maximum of \$581,114.

For purposes of this commitment, a “shortfall” means any outstanding balance owed to the hotel under the applicable contract after application of all conference-related revenues and reasonable mitigation efforts. The organizers agree to make good faith efforts to minimize any such shortfall. This obligation includes any amounts due to the hotel arising from cancellation, attrition, or related contractual penalties.

This obligation shall remain in effect until two (2) months following the conclusion of the conference, at which point it will terminate, except with respect to any shortfall incurred prior to that date.

This agreement is made in consideration of the organization and execution of the conference and the reliance placed on this commitment. This agreement shall be governed by the laws of the State of California.

Please indicate acceptance of this agreement by countersigning below.

Sincerely,

OSS Capital LLC
